All New **Avancé 1501C**

The all new Avancé 1501C from ColDesi is a big jump ahead
in the areas that our customers have wanted most:

Even Better Reliability - the original Avance took the
market by storm and is still a seriously reliable piece of
equipment, but the NEW 1501C has gotten even better.

Simple to Use - the new touch screen control panel, fast
design loading and on-board fonts have made ease of use
and Avance synonymous.

Low, low maintenance - new features on the Avancé 1501C
make it a breeze to maintain! Our customers LOVE IT!

It's READY TO GO - the 1501C is ready to embroider
flats and caps right out of the box. It even comes with
4,000 embroidery designs to get you started.

The Avancé comes with everything you need to succeed,
including digitizing software from Sierra, a great selection of
hoops and accessories a 5-year warranty and the best
training in the industry.

PATCH KIT

People love custom made patches. They are versatile and offer a fantastic look. They are used for uniforms to fashion, and you don't want to miss out on this market. Creating custom made patches has never been easier than with the Patch Kit. All you need is an embroidery machine, an iron or heat press and the Patch Kit. The completed patches can be ironed or sewn on right after they are produced.

Perfect for creating a clean patch that your customers will love.

MIGHTY HOOP MAGNETIC HOOPING SYSTEM

Heavy magnets LOCK large and heavy items into place to prevent skewing during sew out. Thick denim, Carhartt jackets and more. Use Mighty Hoop for hard to hoop items. The 13" X 16" model is shown.

ALL-IN-ONE HOOPER

The Ultimate Hooping Tool! Perfect placement every time. There are two challenges you face with embroidery. One is determining where to place the hoop, and the other is making sure every garment has the same placement. The All-in-One Hooper was invented to help you erase these frustrations. This is the only tool in the world that helps you hoop nearly anything you will embroider, from baby clothes to XXL jackets.

The All-in-One Hooper is amazing and that is why it is one of the most popular tools in the embroidery industry.

AVANCÉ EXTENDED TABLE

Embroidery up to 48" X 14"!

The extended pantograph option turns an already huge embroidery area of 21" x 14" up to 48" X 14". That makes it perfect for making custom draperies, embellishing blankets, quilts, banners, sashes and more. The 48" Frame is included with table.

FAST FRAMES

The Fast Frame XChange 7-n-1 Hoop window system works very well to hoop those items that simply don't work with a conventional tubular hoop. The hoop windows use peel-n-stick backing to keep the items in place while your machine works its magic.

THIS SET COMES WITH: 14" arm for your machine, 2" x 4" mono hoop, 2.5" x 4" and 3" x 4" pocket hoop, 5" x 4" Christmas Stocking hoop, 6" radius hat hoop for sides and back of hats, 7" x 5" attaché case hoop and a 4.5" x 11" sleeve hoop.

Hooping in 5 seconds. Relief from carpal tunnel. Excellent repeat-ability, great for multi-head operations.
